Experience

Software Developer (Contract)

Morgan y Asociados S.A. - Mar 2025 - Present - Buenos Aires, Hybrid

- Building a platform for agricultural investors to manage and monitor their assets.
- Developing scalable features using React, Express.js, and AWS.
- Collaborating with stakeholders to align product development with business objectives.

Information Technology Infrastructure Manager (Part-time)

S.A. WAHREN - Sep 2024 - Present - Buenos Aires, On-site

- Leading the development and upkeep of internal database systems and customer-facing websites.
- Utilizing FastAPI, React.js, and AWS to deliver robust solutions.
- Applying DevOps best practices to improve deployment and maintenance workflows.

Software Engineer (Part-time)

Shield - Sep 2024 - May 2025 - Remote

- Contributed to the core development of a platform facilitating global stablecoin payments.
- Helped build a bridge between fiat and crypto systems to support international business expansion.
- Worked with Next.js, TypeScript, and Express to deliver secure, performant user interfaces.

Solidity/Web3 Developer (Freelance)

Self-Employed - Jun 2022 - Sep 2024 - Remote

- Developed smart contracts and Web3 tools for NFT projects, marketplaces, and DeFi integrations.
- Used Solidity, Go, and PostgreSQL to create scalable blockchain infrastructure.
- Automated on-chain/off-chain workflows and built custom client dashboards.

Back End Developer (Part-time)

zetaequis - Apr 2023 - Oct 2023 - Remote

- Built backend systems and REST APIs integrated with smart contracts.
- Delivered blockchain-enabled solutions using Node.js, Express, and Solidity.

Database Administrator (Part-time)

Logitec S.A. - Aug 2019 - Feb 2020 - Buenos Aires

- Maintained SQL-based databases, optimized queries, and ensured data integrity.

Projects & Interests

- Game Development: Creating interactive experiences using Unity.
- Web3 & Crypto: Exploring decentralized technologies and building experimental tools.
- Entrepreneurship: Investigating product ideas at the intersection of tech and global finance.
